# Multifamily Investor Sentiment - Outlook

According to Berkadia's 2025 Multifamily Investor Sentiment Survey, confidence across the sector is strengthening. 83% of investors plan to expand portfolios, with preferences led by Core-Plus (43%) and Value-Add strategies (30%)—though 93% cite ongoing challenges in underwriting.

The Federal Reserve to cut rates three times in 2025 (25 bps each) and project the 10-Year Treasury to stabilize between 4.0%–4.25% by year-end, creating more favorable investment conditions. While early 2025 activity may remain muted, sentiment is materially stronger heading into late 2025 and 2026.

Texas, the Southeast, and Midwest remain top investment destinations—supported by migration trends, lower operating costs, and business-friendly policies. On the financing front, agency lenders remain dominant, with Fannie Mae and Freddie Mac each allocated \$73 billion in lending capacity for 2025.

# Business Plan

## Buying Right:

- Purchasing the property at an 8.5% in place cap rate (current income and increased expenses) which market cap rates significantly lower (6.0%-6.5%)

## Value Add Scope:

- Upgrade remaining classic units to the premium renovation scope (shaker cabinets, stainless appliances, quartz counters, vinyl flooring, modern fixtures).

## Operational Strategy:

- Vertically integrated platform: acquisition → construction (JNT) → property management (Equity REM).
- Expense optimization via vertical integration (JNT Construction, Fortress Assurance) and Expense discipline: utilities, make-ready, preventive maintenance, streamlined admin.

## Risk Mitigation:

- Prior ownership invested ~\$2.4M after purchasing in 2022: roofs (2023), chiller (2021), boiler (2021), pool, windows, and exteriors.
- We will allocate \$720,000 of reserves (~\$144k annually over 5 years) to address deferred maintenance and ensure long-term durability of building systems. This provides downside protection and positions the property for a low-capex exit.

# Why we like this opportunity

## **Durable In-Place Cash Flow**

8.5% in-place cap rate provides strong yield from day one, with upside through targeted upgrades.

## **High-Barrier Submarket**

Located in Oak Lawn, one of Dallas' most supply-constrained, high-demand neighborhoods adjacent to Uptown and the Medical District.

## **Value-Add with Limited Risk**

Prior ownership invested ~\$2.4M in major systems (roof, chiller, boiler, windows). Our plan focuses on light premium unit upgrades and robust reserves.

## **Attractive Return Profile**

Projected 16%+ IRR and 2x equity multiple over 5 years, supported by strong renter demand.

# IMPORTANT NOTICES AND DISCLOSURES

This document is confidential and may not be reproduced or redistributed. The information presented herein has been prepared for informational purposes only and is not an offer to buy or sell, or a solicitation of an offer to buy or sell any security or fund interest or any financial instrument and is not to be considered investment advice. This presentation is for institutional use only and is not to be distributed to any party other than its intended recipient.

The following materials present information regarding a proposed creation of a special purpose vehicle (the "Issuer") which would offer securities (the “Securities”) to finance its acquisition of a portfolio of financial assets to be selected and managed by the portfolio manager referred to herein (the "Manager"). These materials have been prepared to provide preliminary information about the Issuer and the transactions described herein to a limited number of potential underwriters of the Securities for the sole purpose of assisting them to determine whether they have an interest in underwriting the Securities.

The views and opinions expressed in this presentation are those of The Sponsor Team (“Defined as any and all owners and members of Elevate Commercial Investment Group”) and are subject to change based on market and other conditions. Although the information presented herein has been obtained from and is based upon sources The Sponsor Team believe to be reliable, no representation or warranty, expressed or implied, is made as to the accuracy or completeness of that information. No assurance can be given that the investment objectives described herein will be achieved. Reliance upon information in this material is at the sole discretion of the reader.

This data is for illustrative purposes only. Past performance of indices of asset classes does not represent actual returns or volatility of actual accounts or investment managers, and should not be viewed as indicative of future results. The investments discussed may fluctuate in price or value. Investors may get back less than they invested.

Forward-looking information contained in these materials is subject to certain inherent limitations. Such information is information that is not purely historical in nature and may include, among other things, expected structural features, anticipated ratings, proposed or target portfolio composition, proposed diversification or sector investment, specific investment strategies and forecasts of future market or economic conditions. The forward-looking information contained herein is based upon certain assumptions, which are unlikely to be consistent with, and may differ materially from, actual events and conditions. In addition, not all relevant events or conditions may have been considered in developing such assumptions. Accordingly, actual results will vary and the variations may be material.

Prospective investors should understand such assumptions and evaluate whether they are appropriate for their purposes. These materials may also contain historical market data; however, historical market trends are not reliable indicators of future market behavior. Information in these materials about the Manager, its affiliates and their personnel and affiliates and the historical performance of portfolios it has managed has been supplied by the Manager to provide prospective investors with information as to its general portfolio management experience and may not be viewed as a promise or indicator of the Issuer's future results. Such information and its limitations are discussed further in the sections of these materials in which such information is presented.

Past performance of indices or asset classes does not represent actual returns or volatility of actual accounts or investment managers and should not be viewed as indicative of future results. The comparisons herein of the performances of the market indicators, benchmarks or indices may not be meaningful since the constitution and risks associated with each market indicator, benchmark, or index may be significantly different. Accordingly, no representation or warranty is made to the sufficiency, relevance, important, appropriateness, completeness, or comprehensiveness of the market data, information, or summaries contained herein for any specific purpose.

Past performance is not indicative of comparable future results. Given the inherent volatility of the securities markets, it should not be assumed that investors will experience returns comparable to those shown here. Market and economic conditions may change in the future producing materially different results than those shown here. All investments have inherent risks.

The following information is an investment summary provided to prospective investors and others. This information is not an offering to sell either a security or a solicitation to sell a security. At the request of a recipient, the Company will provide a private placement memorandum, subscription agreement and the Limited Liability Company Operating Agreement. The Managing Member in no way guarantees the projections contained herein. Real estate values, income, expenses and development costs are all affected by a multitude of forces outside the Managing Member’s control. This investment is illiquid and only those persons that are able and willing to risk their entire investment should participate.
